

2nd Iowa Virtual Human Summit

Virtual Humans (as Digital Twins)

Improving Human Performance

Sept. 2, 2021 | Iowa City, IA | Virtual

IOWA

Technology Institute

SAVE THE DATE

WHAT: Iowa Virtual Human Summit 2021: Virtual Humans (as Digital Twins) Improving Human Performance

WHO: Hosted by University of Iowa Technology Institute. Speakers include Sen. Joni Ernst, Maj. Gen. Lonnie G. Hibbard, and representatives from the U.S. Army, private industry, and academia.

WHERE: Virtually & on the University of Iowa campus in Iowa City, IA

WHEN: Thursday, Sept. 2, 2021 | 8 – 11 a.m. (CT)

WHY: Virtual humans, or digital twins, have reached maturity, and there is great opportunity to expand their use in improving human performance. Digital twins offer realism, accuracy, and cost effectiveness in designing new tools and equipment, developing new processes, and assisting in training for the benefit of optimizing human performance.

FOR MORE INFORMATION AND REGISTRATION: <https://iti.uiowa.edu/2021-iowa-virtual-human-summit>

CONTACT: Travis Klopfenstein, executive director for programs, Travis-Klopfenstein@uiowa.edu

ADDITIONAL DETAILS: This is a free event, but registration is required. Those interested in presenting during the summit, contact Mr. Klopfenstein with an abstract.

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact Brian Morelli in advance at brian-morelli@uiowa.edu.
